

Dear Members,

The information below is sent to inform members that phone calls not to be vaccinated from NEA are FALSE. NEA's position is that all staff members should be vaccinated. Please share this information.

We were notified by NEA this morning that there are reports of a robo call to some members across the country claiming to be from NEA and urging our members NOT to be vaccinated. **Obviously, this is not NEA.** We have not heard of any calls in NJ, but just in case know that NEA is supporting the Biden's administration to prioritize educators for the vaccine, and we have advocated for the same in NJ.

If you hear of any fake calls in your locals, please have your members notify your uni serv field rep immediately and also notify NEA: bwashington@nea.org.

Thanks,
everyone!
